Description

1. Sign-Up Form: A form where users enter their personal information to create a new account. It typically includes fields such as name, email address, password, and sometimes additional fields like date of birth or phone number.
2. Create Account Button: A button or link that users click to submit the sign-up form and create their account. It initiates the account creation process and may perform validation checks on the entered information.
3. Social Media Sign-Up: An option to sign up or create an account using existing social media accounts, such as Facebook, Google, Apple. This feature allows users to register quickly by leveraging their social media credentials.
4. Terms and Conditions: A checkbox or link to the website's terms and conditions or user agreement. Users may need to agree to these terms before creating an account.
5. Privacy Policy: A link to the website's privacy policy, which outlines how user data is collected, stored, and used. Users can review the privacy policy to understand how their information is handled.
6. Error Messages: In case of any errors or issues during the sign-up process, the site may display error messages to inform users about the problem. These messages can provide guidance on how to resolve the issue or provide additional information.
7. Password Strength Indicator: A visual indicator that shows the strength of the entered password, helping users create a strong and secure password. It may include criteria like length, complexity, and the presence of uppercase, lowercase, and special characters.
8. Confirmation Email: After successfully creating an account, the site may send a confirmation email to the provided email address. The email typically contains a link or instructions to verify the account and activate it.

[THER-13] [Creating an account without sending a confirmation email](#) Created: 27/09/23 Updated: 27/09/23
